Summary

Seasoned software developer with over ten years of experience in full-stack web development and systems architecture. My experience has provided me with the innovative and technical skills necessary to successfully provide multifaceted technical solutions across a wide range of software platforms.

I am currently interested in Blockchain technologies, smart contracts, automation, and IT infrastructure, and got certified in Solidity development by Consensys. I have experience working with the Ethereum and the Web3 stack, as well as contributing to open source projects.
